OVERDOSE RESPONSE CENTER

SCAM ALERT

#2024-02

The ORC would like to share a potential scam being reported in our area. Please be aware of individuals who approach you identifying themselves as part of residential rehabilitation programs in California.

One reported group, known as **Santa Monica Rehab of California**, is offering residential services. The claims of residential treatment services and ongoing treatment in California are likely **FALSE CLAIMS**. Beware of body brokering, cash offers, kickbacks, and insurance fraud. The services offered by the individuals soliciting participation in their program may have no value to you or your treatment or rehabilitation. Claims offering insurance applications in exchange for your personal information are being used for someone else's financial gain.

For addiction treatment resources, visit the Treatment Connection website at www.treatmentconnection.com or scan the QR code below. These facilities have been reviewed and validated by the state government where they are located across the country.
